

Rod Team

Tournament mode

Thursday 20.09.2018
5 rounds
Maximum time 4 minutes

Stock

E 30
H20
R16
1 x rod (2m)
8 x block
1x rod reception

S1 picks up the rod in front of him, threads it through the pylons P24-P8 and puts it on the blocks in front of P12.

S2 takes the weight in front of P10 and places it on the green part of the rod in front of P12. He lifts up the rod with the weight and passes it between the pylons P24-P16 to S3.

S3 puts the rod on the block in front of P21.

The End:

Every forklift is in its own zone with the tines on the ground.
